## Flat Beds & Cargo Bodies

FBC-ST-LFH-V40-80

80T / 4 Axles / 52Ft

Above drawing and dimensions might be slightly different than actual trailer

#### CHASSIS CONSTRUCTION

- Main longitudinals from hot-rolled beams
- Transverse flanges meeting lower longitudinal flanges for chassis sub-assembly
- Reinforcement flanges under main longitudinals at neck level
- Special longitudinal/transverses arrangement for minimum floor buckling
- All chassis welding done in flat position
- Checkered steel floor

#### RUNNING GEARS & SUSPENSIONS

- Amco heavy duty wide square hollow axles 4x18T
- Amco VB version heavy duty multi-leaf suspension system for all axles
- Thick high tensile steel equalizers and hangers

#### WHEELS & TIRES

- 16 offset wheels of 22.5x9.00 size on all axles
- 16 high quality 315/80R22.5 20PR radial tires

#### BRAKES

- Two line air brake system
- Drum with good heat conductivity
- Air vessel with minimum needed volume
- Emergency relay valve
- Slack adjuster

#### TOWING SYSTEM

- 3.5" King pin, forged and heat treated
- Reinforced pick-up plate

#### LANDING GEAR

- High tensile steel outer envelop.
- Two speed, telescopic type, manually operated with universal base plates
- Needed static and lifting capacity
- Forged gears and internal parts

#### PAINTING WORK & FINISH

- Structure primed with synthetic enamel coating
- Synthetic enamel finish white & RAL 7021 black grey

#### ELECTRICAL OUTFIT

- Complete 24 volts electrical outfit with 7 poles socket and protected distribution cables
- Protected combined double rear lights including stoplight and direction indicator
- Position lights on sides

#### STANDARD ACCESSORIES

- Steel tool box
- Spare wheel carrier
- Lashing hooks
- Rear mudguard

#### OPTIONAL ACCESSORIES

- Rigid axle or liftable axle
- Diesel tank
- Spare tire
- Full mudguard
- Basket for tarpaulin
- Tarpaulin
